Diaspora Medics For Good Governance are medical professionals in Diaspora with the vision of restoring the country's health sector to its full potential

01

Our 'PETER OBI PROJECT'

is focused on mobilizing voters across the country towards electing Peter Obi for President in 2023.

We believe that competent and visionary leadership is key driver to elevating the health status of every Nigerian - we believe His Excellency Peter Obi is the one for this task - the only hope there is for this aspiration to become a reality

To this effect:

we are working very hard - making personal sacrifices in effort, time and finances to achieve this purpose

So far:

We raised about N8.1 million within 2 weeks for the PVC registration drive in July 2022.

In collaboration with groups in Nigeria, we completed a total of 40 outreaches in 23 states; amassing over 8500 new PVC registrations and transfers.

For Our Phase II Project

1. Mass grassroots voter sensitization, education and mobilization

2. Grassroot voter structure building

We are collaborating extensively with other support groups- Peter Obi Support Network, Northern Coalition for Peter Obi to mention just a few as we understand the work still needed to be done is vast and cross disciplinary and multilateral collaborations are crucial to generate massive effort needed to tackle these challenges and accomplish these tasks before Election Day.

Presently, we are working on a multi day grassroots education and mobilization in multiple LGAs in Southern Kaduna with the ultimate hope of **turning out massive votes for His excellency from this vast area on Election Day.**

With the Peter Obi Project

by Diaspora Medics For Good Governance,

our joy is that His Excellency Mr Peter Obi with his unparalleled antecedents and his reputation of a pragmatic action focused leadership is a very easy candidate to sell!

Our job as his supporters who believe in his vision for a better Nigeria is to ensure that the 'gospel' of his candidacy reaches the nook and cranny /all corners of the country - to bring forth massive support for him demonstrable at the polls come February 2023 and usher in a new and great Nigeria.

May God help us all.

Thank you for your attention.
